Subject: Area 3 of OU5 Kalamazoo River data request
Date: Thursday, August 29, 2013 7:22:54 PM

The Area 3 core field data and sediment/soil PCB analytical data requested are posted to a dedicated FTP site. See instructions below. These data represent available information from the Otsego Township Dam upstream to 19th Street bridge.

The data collected by GP and MDEQ were merged into one database. Not all fields for the MDEQ data are present and some (units) are inconsistent. We are working to perfect these details, but did not want to hold up your access to the data. These minor imperfections should not hinder use of the data. If you have specific questions on the database, please contact me.

Your “Standard” FTP site has been set-up

Your “**Standard**” FTP site has been set-up and a 'Test' folder created to ensure everything is working well.

You can use your FTP (file transfer protocol) site to exchange large files with colleagues and clients without using email.

To open your FTP site

- This is the unique link to your FTP site
<ftp://gp-transfer:kzoo13@amftp.amec.com>
- **Do not click the link! Use the following steps for quick and easy access...**
- **Copy** the above link

Right-click on the **My Computer** icon on your desktop and select **Explore**

or

Using your keyboard, press and hold the **Windows** key and tap the **letter E** to display **My Computer / Windows Explorer**

- **Paste** the link you copied from above into the **Address** box and click **Go** or press **Enter**
(You can type the details into the **Address** box if you prefer...)
- The site should open automatically for you (if not, see 'Tip' below)
- You can now copy files into your FTP site, create sub-folders if required, then email the same link to colleagues or external clients and easily exchange large documents

-  [This guide](#) gives step-by-step instructions on how to use an FTP site and details on how long the site will remain live

Tip

If the above does not work for you, to open the FTP site -

- Click this link <ftp://amftp.amec.com>
- A window opens displaying -
FTP root at amftp.amec.com
- Click the **Page** button  (or the **View** menu option) and then select **Open FTP Site in Windows Explorer**
- When asked for username and password enter these details
 - Username - **gp-transfer**
 - Password - **kzoo13**
